PREFACE

THE fact that the words trace, trail, and road are often used interchangeably has made it necessary in this index to classify them as follows: all buffalo routes are given here as *traces*, Indian routes as *trails*, and white men's routes as *roads*. To know the history of a given road, therefore, it may be necessary to look for it under both its modern and its ancient name.

Of the extraordinary number of taverns on American pioneer roads a large portion went under the name of the landlord, as, Sampey's Tavern. In the following index these are all given under the landlord's name in the possessive case, as, Sampey's. Unimportant as many of these references are, they are genealogically of moment and must be preserved.

A. B. H.

MARIETTA, OHIO, January 26, 1905.

Index

INDEX

ABEL, Robert, subscribes toward improvement of Wilderness Road, **6**, 198.
Abel's (tavern) **12**, 119.

Zinn's blockhouse tavern, 12, 83.

Early Western Travels
1748-1846

A SERIES OF ANNOTATED REPRINTS of some of the best and rarest contemporary volumes of travel, descriptive of the Aborigines and Social and Economic Conditions in the Middle and Far West, during the Period of Early American Settlement.

Edited, with Historical, Geographical, Ethnological, and Bibliographical Notes, and Introductions and Index, by

Reuben Gold Thwaites

Editor of "The Jesuit Relations and Allied Documents," "Wisconsin Historical Collections," "Chronicles of Border Warfare," "Hennepin's New Discovery," etc.

With facsimiles of the original title-pages, maps, portraits, views, etc. 31 volumes, large 8vo, cloth, uncut, gilt tops. Price $4.00 net per volume (except the Maximilien Atlas, which is $15.00 net). Limited edition; each set numbered and signed.

An Elaborate Analytical Index to the Whole

Almost all of the rare originals are without indexes. In the present reprint series, this immense mass of historical data will be made accessible through one exhaustive analytical index, to occupy the concluding volume.

In many cases the records reproduced are so rare that this collection will be practically the only resource of the student of the original sources of our early history. The printing and binding of the edition are handsome and at the same time so substantial that the documents reproduced may be said to have been rescued once for all time.—*Public Opinion.*
